

August 1, 2020

**Worcester, Massachusetts** – Bay State Physical Therapy, Massachusetts' leading provider in outpatient physical therapy services, is pleased to announce that it has partnered with Comprehensive Physical Therapy in West Brookfield and Leicester.

Comprehensive PT has been serving the central MA community since 1991 and has a strong reputation for providing high-quality clinical care with a patient centered approach. The Comprehensive PT team that James Buzzell and Rosemary Wolanski built over the years have created deep ties in the communities they serve. They are committed to providing their patients with a continued level of care with the same dedicated team.

"Comprehensive Physical Therapy's great reputation as a provider of high-quality care in the area caught our attention as we looked to expand our ability to serve the Central MA market," said Dr. Steve Windwer, founder and CEO of Bay State Physical Therapy. "The alignment of our cultures and values made this a special partnership opportunity, and we could not be more excited to welcome the employees, patients and families of Comprehensive PT to the Bay State Physical Therapy family," said Windwer.

James Buzzell, who will be staying on as Managing Partner stated, "Upon reflection of the past few years, we have felt that a partnership may be able to provide our team and patients with greater resources. After much thought and consideration, we decided Bay State Physical Therapy will provide us with these resources in addition to sharing the same mission and values. The support they will provide our team will better enable us to serve our communities. We are excited for this partnership and the new opportunities it will bring."

The acquisition of Comprehensive Physical Therapy reflects Bay State Physical Therapy's continued desire to enhance access and better serve its patients and partners in their expansion into the Central MA communities. Since its inception, Bay State Physical Therapy has prioritized the outcomes and experiences of its patients and will continue to invest in developing New England's clinical leader in physical therapy.
